## PROFESSIONAL SUMMARY

Security Analyst with strong experience supporting identity and access management, endpoint security, workstation hardening, and authentication-log monitoring across multi-user environments. Skilled in enforcing access controls, managing MFA processes, reviewing suspicious activity, and implementing standardized security procedures that strengthen operational reliability. Known for a disciplined, methodical approach to safeguarding systems, improving day-to-day security posture, and producing clear documentation that supports stable and compliant IT operations.

## EXPERIENCE

### Security Analyst

*Trinity Systems - Redmond, WA*

Sep 2024 - Present

- Manage user access, MFA enrollment, and permission changes across multiple systems
- Harden and configure Windows endpoints, ensuring secure, compliant workstation baselines
- Monitor authentication activity and investigate suspicious login patterns
- Conduct access reviews and enforce least-privilege controls
- Maintain security procedures, documentation, and onboarding/offboarding workflows
- Support the enforcement of security policies across user environments
- Assist with firewall rules, segmentation planning, and basic network security tasks
- Troubleshoot security-related system issues and provide technical support to users

---

## Security Analyst / Contractor

**Trinity Systems - Redmond, WA**

May 2015 - Aug 2024

- Managed client technical onboarding, system configurations, and operational workflows.
- Delivered digital development and basic security support before transitioning into cybersecurity.

## EDUCATION

### **Northern Alberta Institute of Technology (NAIT), Edmonton, AB**

*Cybersecurity Post-Diploma Certificate*

Sep 2024 - Apr 2026

### **British Columbia Institute of Technology (BCIT), Burnaby, BC**

*Digital Design and Development*

Sep 2017 - Apr 2019

## CERTIFICATIONS

- CompTIA Security+ (SY0-701) — *Expected April 2026*
- Google Cybersecurity Professional Certificate
- IBM Cybersecurity Analyst Professional Certificate
- Cisco Networking Essentials
- EC-Council — Cybersecurity Attack and Defense Fundamentals (2025)

## PROJECT PORTFOLIO

**GitHub Portfolio:** [github.com/gstephens-cyber](https://github.com/gstephens-cyber)

### **Highlighted Projects:**

- Intrusion Detection
- Identity & Access Management Documentation
- VLAN Segmentation & Basic ACL Configuration
- Server Hardening - Linux and Windows
- SIEM Log Review and Basic Alert Analysis
